

Latin America – Cultural Features Lesson

Reflection

	INSTANT	LATER
material	<p>CT suggested more “in between material” like New Groove Analysis to keep participation and motivation high the ENTIRE class period.</p>	<p>Begin incorporating into slides directions, WS pauses, and other activities much like my CT has when I have observed her in the past....</p>
rapport with students	<p>Using the <i>Emperor's New Groove</i> clip to link Inca culture to the class worked well. Had almost 100% participation. Students worked well with pulling truth and fiction from the clip and applying content we had learned in class to the clip. Many students commented that activity was fun.</p>	<p>Use more movie clips (disney!)</p>
